## STAFF REPORT

# 1

Request of **Heritage Fellowship, per Jeremy Weaver (applicant)** for **Heritage Assembly of God, Inc., per Vernel Perry (owner)** for a Zoning Map Amendment for a Special Sign District for an approximate 20.7 acre area located at 7216 US 42, Florence, Kentucky, which is zoned Suburban Residential Two (SR-2) and Office One (O-1). The request is for a Special Sign District to allow a free-standing sign having an electronic message board/panel in an Office One (O-1) district.

January 4, 2023

### REQUEST

The request is for a Zoning Map Amendment for a Special Sign District to allow Heritage Assembly of God to remove two existing free-standing signs and install a new monument sign with a full color electronic message screen/panel.

The proposal is to install a 49.96 square foot monument sign, of which, 24.98 square feet (50%) will be a full color electronic message screen/panel.

A Special Sign District application is required because electronic message screen/panel are not permitted within the O-1 district.

### SITE HISTORY

This site has been zoned SR-2 and O-1 since the adoption of the 1980 Zoning Regulations.

The two existing free-standing signs have been present since before the adoption of the 1980 Zoning Regulations.

### APPLICABLE SIGN REGULATIONS

- A. Section 3400 of the Boone County Zoning Regulations states that "The purpose of the sign article is to coordinate the type, placement and physical dimensions of signs within the different zones; to recognize the commercial communication requirements of all sectors of the business community; to recognize free speech; to encourage the innovative use of design through Special Sign Districts. Furthermore, this article is intended to protect property values, create a more attractive economic and business climate, and enhance and protect the physical appearance of the community. Lastly, this article is further intended to reduce sign or advertising distractions and obstructions that may contribute to traffic accidents, reduce hazards that may be caused by signs overhanging or projecting over public rights-of-way, and generally enhance community development".

- B. Section 3440 of the Boone County Zoning Regulations allows for the creation of special sign districts with the appropriate legislative body's approval. "The effect of a special sign district shall be to modify requirements, regulations, and procedures for signs included as part of the district. The purpose of the district shall be to respond to the special circumstances of development, renewal, redevelopment, or rehabilitation of areas of the County and to better achieve county-wide policies for growth and development."
- C. Section 4000 of the Boone County Zoning Regulations provides for the following definition:
- a. Sign, Monument Style: A freestanding sign that is composed of a solid structure between finished grade and the top of sign.
- D. While the Boone County Zoning Regulations do not allow electronic message boards within the O-1 district, Section 3430 of the Boone County Zoning Regulations provides for the following minimum standards and requirements:
- a. Such message boards and screens will be considered a part of a permitted free-standing or building mounted sign; up to fifty percent (50%) of the permitted sign area can be used as an electronic message board or electronic display screen.
- b. All such message boards and screens shall meet the minimum standards of the Kentucky Transportation Cabinet and any other controlling local, state, or federal agency.
- c. Electronic message boards and electronic display screens shall not be permitted at intervals of less than six-hundred sixty (660) feet, measured along the centerline of each interstate or thoroughfare from which the sign will be visible, between lines through the center of the signs and perpendicular or radial to said centerline.
- d. Apparent motion of the visual message, caused by, but not limited to, the illusion of moving objects, moving patterns or boards of light, expanding contracting, or rotating shapes or other similar animation effects, shall be prohibited. Such restriction applies to "scrolling" or "running" messages.
- e. The message displayed on the board or screen must be displayed for a minimum of five (5) second intervals. In no instance can a message, or part thereof, flash on the message board.
- f. Such message boards and screens shall have a photocell or dimmer and the displayed messages shall dim as the sky gets darker or brighten as the sky gets brighter.

- g. Full color and monochrome message boards shall meet the following pixel pitch requirements:
  - i. A 19 mm pixel pitch or better resolution shall be required when the top of the message board is located 30 feet or less above grade.
  - ii. A 25 mm pixel pitch or better resolution shall be required when the top of the message boards is located more than 30 feet above grade.

Note: The pixel pitch requirements shall not apply to price boards (gas prices, hotel room rates, and other similar fixed price displays).

### SITE CHARACTERISTICS

- A. The site is part of a larger area, containing approximately 20.7 acres, and is currently occupied by a church, parsonage, academy, and its associated off-street parking areas.
- B. There is currently a freestanding manually changeable copy sign for Heritage Academy on the southern portion of the site and a freestanding sign for Heritage Fellowship Church on the northern portion of the site.

### ADJACENT LAND USES AND ZONING

- North: Florence Elementary School (PF)
- South: Mixed Office and Commercial (O-1/C-2)
- East: Florence Christian Church (FMS)
- West: Mixed Office and Commercial (O-1/UR-2/PD/PO)

### RELATIONSHIP TO COMPREHENSIVE PLAN

- A. Our Boone County – Plan 2040 “2040 Future Land Use Plan” designates the site for Public/Institutional uses. This designation is described as follows:

“Government offices, schools, libraries, churches, cemeteries, fairgrounds, maintenance areas, etc.”

- B. The following Our Boone County – Plan 2040 Goals and Objectives apply to this application:

Land uses and zoning decisions shall strive to balance the rights of landowners with the rights of neighbors and the community (Overall Goal A, Objective 4).

Development policies shall not discriminate against any person (Demographics Goal A, Objective 1).

Priority shall be given towards maintaining, protecting, and improving the capacity and safety of the existing road system across jurisdictions (Transportation Goal A, Objective 1).

- C. US 42 is a state maintained arterial street having four driving lanes and a posted speed limit of 40 MPH. Sidewalks are provided along both sides of the roadway.
- D. Our Boone County Plan 2040 contains the following Future Land Use Development Guideline as it pertains to Design, Signs, and Cultural Resource Preservation (page 97):

"Developments in Boone County should give consideration to the overall design of the area. Site, landscape, and building design should be a primary concern at the early stages of the development, with an emphasis on the aesthetic impact of the proposed use. The minimal use of signs is encouraged; signage should be adequate to identify a specific development, but should not be used as a means to compete for motorists attention. The objective is to avoid the confusion and/or distraction of motorists, and to avoid the potential negative impacts of signs on the visual appearance of a development corridor. Utility lines should be placed underground wherever possible, and junction boxes screened from public view."

#### STAFF COMMENTS

- A. The Boone County Planning Commission and Boone County Fiscal Court should analyze the following passages from the Boone County Zoning Regulations and Boone County Comprehensive Plan before acting on the request:
  - a. Section 3440 of the Zoning Regulations states that the purpose of a Special Sign District shall be to respond to the special circumstances of development, renewal, redevelopment, or rehabilitation of areas of the County and to better achieve county-wide policies for growth and development.
  - b. Other than the Electronic Message Screen/Board, the proposed sign meets the other requirements of the Zoning Regulations.
  - c. Should the commission take action to recommend approval of the submitted request, the following conditions should be part of that action:
    - 1. That the message displayed on the proposed electronic message board/screen be displayed for a minimum of five (5) second intervals.
    - 2. No message shall contain more than one (1) still photo and/or three (3) lines of text.
    - 3. Any portion of an alphanumeric message that is not displayed on a still photo, shall use a black background.
    - 4. The sign shall not be used to advertise off premise businesses.

CONCLUSION

This request needs to be evaluated by the Boone County Planning Commission and Boone County Fiscal Court in terms of the three criteria necessary for approving a Zoning Map Amendment and Section 3440 (Special Sign Districts) of the zoning regulations. The Future Land Use Map will not need to be amended if the request is approved.

- B. The request is in agreement with the following passages from the land use element:
- Developments in Boone County should give consideration to the overall design of the area. Site, landscape, and building design should be a primary concern at the early stages of the development, with an emphasis on the aesthetic impact of the proposed use. The minimal use of signs is encouraged; signage should be adequate to identify a specific development, but should not be used as a means to compete for motorists attention. The objective is to avoid the confusion and/or distraction of motorists, and to avoid the potential negative impacts of signs on the visual appearance of a development corridor. Utility lines should be placed underground wherever possible, and junction boxes screened from public view (Future Land Use Development Guidelines - Design, Signs, and Cultural Resource Preservation, pg. 97).
4. The Committee concluded the attached conditions are necessary to achieve consistency with the specific goals, objectives, and policies of Our Boone County Plan 2040 and Article 3 "Amendment" of the Boone County Zoning Regulations. The Committee also concluded that the attached conditions are necessary to mitigate any foreseeable community impacts that may be created by the development. The applicant and property owner have signed a letter demonstrating agreement with these conditions.

CONDITIONS:

1. The message displayed on the proposed electronic message board/screen be displayed for a minimum of five (5) second intervals.
2. No message shall contain more than one (1) still photo and/or three (3) lines of text.
3. Any portion of an alphanumeric message that is not displayed on a still photo, shall use a black background.
4. The sign shall not be used to advertise off premise businesses.
5. The sign shall not display moving patterns, the illusion of running objects moving patterns or boards of light, rotating shapes, or other similar rotating shapes. No scrolling of running messages.

**ZONING MAP AMENDMENT FOR A SPECIAL SIGN DISTRICT, Alaina Hagenseker, Staff**

1. Request of **Heritage Fellowship, per Jeremy Weaver (applicant)** for **Heritage Assembly of God, Inc., per Vernel Perry (owner)** for a Zoning Map Amendment for a Special Sign District for an approximate 20.7 acre area located at 7216 US 42, Florence, Kentucky, which is zoned Suburban Residential Two (SR-2) and Office One (O-1). The request is for a Special Sign District to allow a free standing sign having an electronic message board/panel in an Office One (O-1) district.

Staff Member, Alaina Hagenseker, referred to her PowerPoint presentation. The request is from Heritage Assembly of God Church to remove two existing free-standing signs and replace them with a monument sign with a full color electronic message board panel. The proposal is to install a 49.96 square foot monument sign of which 24.98 square feet will be a full color electronic message screen. The Special Sign District application is required because electronic message boards are not permitted in an O-1 zoning district. Mrs. Hagenseker showed photographs of the existing signs, the subject site and adjoining properties. The applicant submitted drawings showing the proposed signs and the location of where the new sign will be located. Mrs. Hagenseker referred to Section 3440 of the Zoning Regulations and the purpose of the Special Sign District regulations - special circumstances of an area or specific property. She offered potential conditions of the proposal should the Planning Commission approve it. One condition relates to display intervals of a minimum of 5 seconds. The second condition suggests that no message shall contain more than one still photo and/or 3 lines of text. A third potential condition includes any portion of an alphanumeric message that is not displayed on a still photo, shall use a black background. Finally, the proposed sign shall not be used to advertise off premise businesses.

Chairman Rolfsen asked if the applicant was present and wanted to proceed with their presentation?

Mr. Jeremy Weaver, applicant, stated that the original sign has been in place since 1975. They are trying to upgrade the premises. It will be used to update school events.

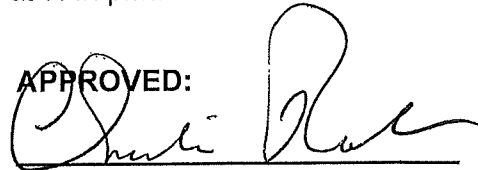

Chairman Rolfsen asked if anyone in the audience had any comments or questions?

Seeing no one, Chairman Rolfsen asked if any Commissioners had any questions or comments?

Mr. Harper asked what was the bottom panel on the proposed sign? Mr. Weaver replied that it was the base with their address on it.

Seeing no further questions or comments, Chairman Rolfsen announced that the Committee Meeting for this item will be on January 18, 2023 at 5:00 P.M. This item will be on the Agenda for the Business Meeting on February 1, 2023 at 7:00 p.m. in the Fiscal Courtroom. Chairman Rolfsen closed the Public Hearing at 7:42 p.m.

Staff Member, Todd Morgan, referred to a PowerPoint presentation. The Technical/Design Review Committee has been meeting on this project since November. It involves the screening of rooftop mechanicals on the building. Turfway Park brought back a new option of painting the RTUs on top of the building in order to match the building. It involves the front and side elevations. A striping pattern would be painted on the units. The units in the rear would be painted a beige color. Mr. Morgan stated that the Technical/Design Review Committee is recommending approval. A packet of drawings were distributed to the Board members showing the stripes. Mr. Costello asked if the applicant was aware that the units will have to be maintained or repainted in the future? Mr. Morgan replied yes. Mr. Jihad Hillany, engineer, understood and agreed. He asked that the request be approved.

Mr. Schwenke inquired on whether the applicant knew about this issue before they built the project.
